

MAPPING of BCO activities and partners 2005-2006
Updated January 2006

The Purpose of the following mapping exercise is:

- provides an overview of the countries, regions and activities that each of the partners are engaged in doing ICT4D work
- identifies where and which BCO partners are working together and which local organizations are involved
- highlights networks, synergies and gaps in the work we do
- sheds light where there is duplication or overlap of activities

Guidelines for filling in the following matrix:

1. Kindly find the country where you as a BCO partner are implementing projects and programmes. Add the country if not here.
 Under "BCO Partner" – your organization's name
 Under "Priority theme/activity" – list the activities you are involved in
 Under "Lead local partner" - state the local partner who is involved in leading the activity
 Under "BCO Partners involved" – list other BCO partners participating in the implementation/planning/funding
2. The last page is a continental overview of activities broken down by partner involvement.
3. Please review the information below and check that it is correct

Countries in alphabetical order:

Country: AFGHANISTAN			
BCO PARTNER	PRIORITY THEME/ACTIVITY	Lead Local partner	BCO Partners Involved
SDC	The BBC Afghan Education Project (BBC AEP) will put a focus in all its different broadcasting formats on reconciliation during the coming two years. In addition, the issue of HIV/AIDS will also be addressed during the same period.		

Country: ALBANIA			
BCO PARTNER	PRIORITY THEME/ACTIVITY	Lead Local partner	BCO Partners Involved

SDC	The project contributes to modernize the public archives in Albania, following legally defined standards. SDC's co-funding allows the renovations and installations of infrastructure, the establishment of an electronic database and the equipment with computer systems, scanners and microfilm facilities.		
-----	--	--	--

Country: ARMENIA

BCO PARTNER	PRIORITY THEME/ACTIVITY	Lead Local partner	BCO Partners Involved
SDC	Establishment of an internet based information system with public computer stations. The centre will promote ICT through research and training programmes, host public discussions, and serve as a hub for Freenet public access sites being established in many regions. It will also support e-democracy and e-governance systems, including the e-consulate of the Ministry of Foreign Affairs in Armenia

SDC	For SDC development activities in general: see list of SDC priority countries http://www.deza.admin.ch/index.php?userhash=38607169&navID=21047&langID=1	
SDC	The Global Knowledge Partnership (GKP) is an evolving network of public, private and not for profit organisations. GKP aims to promote broad access to – and effective use of – knowledge and information as tools of equitable sustainable development and empowerment.	
SDC	telecentre.org's primary strategy is to catalyze and strengthen telecentre networks around the world.	IDRC, Microsoft
SDC	The Youth Social Enterprise Initiative (YSEI) is a global movement of young leaders empowered to create and sustain effective social enterprises through the innovative use of ICT for development (ICT4D).	GKP
SDC	GeSCI's goal is to convene impactful partnerships at local, national and international level to support developing countries as they create and deliver comprehensive strategies to harness ICTs for education and community growth.	,

SDC	DiploFoundation is a non-profit organisation which works to assist all countries, particularly those with limited human and financial resources, to participate meaningfully in international affairs, through education and training programs, research, and the development of information and communications technologies for diplomatic activities.	
SDC	The Earth Council has developed an e-learning facility that can educate and train people around the world on topics of global importance to sustainable development (climate change, world trade, sustainability, others).	
SDC	Eldis is an online gateway to development information and one of the most frequently used development-related resource on the web.	DfID, SIDA
SDC	The Mountain Forum (MF) is a global network of networks with more than 4000 individual members and 372 formally registered organizations. It promotes global action toward equitable and ecologically sustainable mountain development through information sharing, mutual support and advocacy.	Bellanet
SDC	The KM4Dev network has been running successfully for almost 5 years, and has a number of useful resources, including a lively discussion forum, document archives and a Frequently Asked Question (FAQ) system.	Bellanet
