**Panos Radio South Asia (PRSA)** is an undertaking of Panos South Asia. In keeping with Panos South Asia's mission to encourage and stimulate informed public debate on key developmental issues in South Asia and to ensure the effective flow of information from media in the south to the north, Panos Radio South Asia produces features that are distributed through Interworld Radio. Panos Radio South Asia also produces Panoscope a 15-minutes radio magazine that captures the voices, views and issues of poor and marginalised people in South Asia. [More »](#)

**» Panoscope**

Panoscope is an independent production of Panos Radio South Asia. A 15-minutes radio magazine, Panoscope is divided into three 5-minutes segments. Panoscope includes a brief news round-up on Panos South Asia's five thematic areas, a 5-minute feature, and commentaries, oral testimonies or interviews on key South Asian development issues. **» News and Announcements****'Panoscope' goes on air**

August 10, 2007, 1:03 am

If you are in Kathmandu then tune in to Ujyaalo FM at 90 Mhz FM frequency to listen to Panos Radio South Asia's radio magazine 'Panoscope'.

Panoscope after a year of being broadcasted online is now broadcasted real time from 3rd August every Friday mornings at 8:15 am (Nepal Standard Time) through Ujyaalo 90 FM, a newly launched development FM radio station in Nepal.

**» Panoscope Latest Issues****Land of Steel :: 14-08-2007**

In this edition of Panoscope, we go to Orissa in India to get behind the popular unrest against the Korean steel giant Pohang Steel Company (POSCO)'s proposal to build India's largest steel plant. POSCO has already acquired one thousand one hundred and thirty five acres of land in the face of a stiff local opposition. However, the debate over the project's stated economic gains and its projected social and environmental cost refuses to die down. (15:00)

## What has happened so far?

- PRSA completed one year in August 2007
- Produced, and broadcasted and distributed online more than 24 episodes of the fortnightly 15 minutes radio feature 'Panoscope'
- Recently being broadcasted by an independent FM in Kathmandu on a weekly basis
- The number of Unique Visitors to the PRSA portal increasing every month. Same applies to number of people subscribing to the PRSA portal

## Implications

- PRSA developing as a regular outlet for Panos South Asia's other project's audio or radio content to be distributed or disseminated
- PRSA has been able to support the aim of fostering media pluralism in terms of views, voices and contents
- Integration of online audio/radio broadcasting and distribution in development (in terms of content production, and broadcasting and distribution)

# The big BCO OPPORTUNITIES...

- Do BCO partners have projects related to radio or audio?
- The Panos Radio South Asia's content 'Panoscope' can be used by such radio projects of BCO partners?
- Asia interested in exploring the possibilities of collaboration with BCO partners like Panos South AMARC and others in other regions (continents and sub-continents) to 'share' PRSA production 'Panoscope'.

The 'Panoscope' can be distributed and broadcasted as it is in English, or,

- Translated into other regional and local languages and distributed and broadcasted?
- Possibilities of collaboration between BCO partners?
